INVESTING SCENARIOS

Proverbs 21:5 tells us “Steady plodding brings prosperity, hasty speculation brings poverty” (Proverbs 21:5, TLB). Other translations use the word “diligent” in place of “steady.” Both of these terms have something in common in their definition – the word “constant.”

Investing is all about building up funds for the long term where they can take advantage of compound interest. You want to maximize the opportunity for growth over years or even decades before the funds will be required.

I believe, if possible, that you should begin investing as soon as you can, even if it is a small amount.

COMPASS COMMENTARY

Successful investing and money management requires a variety of character traits. Be diligent and patient, not in a hurry to achieve financial growth. Keep track of your investments, without obsessing over them. Be aware of market conditions that might impact your investments. Faithfulness is blessed by God (remember, it is His money anyway!). Don't neglect opportunities to help those in need with your resources. Nothing good ever comes from acquiring something through dishonesty and deceit. Faithfully honoring God and living according to His principles will position you for His blessings.
