Click on the Snowball Debt Calculator to begin!

Remember how to snowball your debts as you prioritize paying them off. Make the minimum payments on all your debts, but focus on accelerating the payment of your smallest credit card debt first. Then, after you pay off the first one, apply its payment toward the next-smallest one. After the second one is paid off, apply what you were paying on the first and second to pay off the third, and so forth.

After you pay off all your plastic debt, snowball your other debts in exactly the same way.

The Snowball Debt Calculator is a great tool that can help you create a plan, create reports and show you when you how fast you can pay off your debts!
