★ CONGRATULATIONS! ★

You have solved the puzzles and cracked the codes to reveal the treasure: that there are 2,350 verses about money in the Bible!

This week our adventure focused on the importance of the Bible. We found that the Bible is God's Word and that His words are for ALL people - yes, even kids!

- We learned how important it is for us to know God's Word because it can become alive inside us and help us each and every day!
- We can make choices that will keep us on the right path based on what God has told us.
- God's thoughts and ways are higher than ours, so His advice to us may sound strange at times, especially when we compare His words to what we see on TV or in the world.
- We uncovered the difference between worldly wealth and true riches.
- We discovered that God wants to help us manage our worldly wealth in His ways.
- We also read that He has unlimited true riches for our lives and wants to be able to trust us with them.
